FRESHER

Sambalpur, Odisha | 7609858433 | rahulnaik6241@gmail.com

Objective

I'm a motivated MERN stack developer who enjoys building clean, responsive web applications that actually solve problems. I'm comfortable working on both the front-end and back-end, and I love turning ideas into real, working products using tools like React, Node.js, Express, and MongoDB. I'm looking for a role where I can grow my skills, contribute to meaningful projects, and be part of a team that values learning, collaboration, and building great user experiences.

Recommended Skills:

- ❖ Front-end Development: HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- ❖ Back-end Development: Node.js, Express.js
- ❖ Database Management: MongoDB
- ❖ Version Control: Git, GitHub
- ❖ Responsive Design: Building mobile-friendly and cross-browser compatible websites
- ❖ Problem-Solving: Debugging and troubleshooting code
- ❖ API Integration: RESTful APIs, third-party API handling
- ❖ Basic DevOps Knowledge: Hosting websites on platforms like Vercel, Netlify, or AWS.
- ❖ UI/UX Principles: Understanding user-centered design and accessibility
- ❖ Testing and Optimization: Basic knowledge of testing (like unit testing) and optimizing website performance
- ❖ Soft Skills: Communication, teamwork, adaptability, client-focused service.

Projects

- ❖ Online Shopping System

Role: Full-Stack Developer

Description: Developed a dynamic and user-friendly e-commerce platform for online product browsing and purchasing.

- Designed responsive and attractive front-end interfaces for seamless user experience across all devices.
- Implemented secure authentication, product management, cart, checkout, and order tracking functionalities.
- Integrated Razorpay for secure payment processing and MongoDB for efficient storage of user and order data.
- Built admin dashboard features for managing products, orders, and customer queries.

Technologies Used: React.js, Node.js, Express.js, MongoDB, Razorpay, Tailwind CSS, JWT Authentication.

❖ Plant Leaf Disease Detection System

Role: Web Developer / Machine Learning Integrator

Description: Developed a web-based system to detect plant leaf diseases using machine learning models.

- Designed a user-friendly interface for farmers to upload leaf images for instant disease prediction.
- Integrated a pre-trained deep learning model for accurate analysis and classification of plant diseases.
- Enabled real-time result generation and provided fertilizer recommendations based on detected disease types.

Technologies Used: HTML, CSS, JavaScript, Python (TensorFlow/Keras), Flask, Firebase, Machine Learning APIs.

Hobbies

- Graphic design (using Canva, Photoshop, Figma).
- Board games and strategy games.
- Photography / video editing

Personal details

- ✓ **Full Name:** Rahul Naik
- ✓ **Date of Birth:** 7th march 2004
- ✓ **Gender:** Male
- ✓ **Nationality:** Indian
- ✓ **Languages Known:** English, Hindi, Odia
